

Trialshopy Company Portfolio Website Assignment (MERN Stack)

Company Overview

Trialshopy is an AI-powered Smart AR Shopping Platform that enables users to virtually try on clothes through Smart AR Displays installed in colleges, universities, offices, and public spaces. Users can visualize outfits in real-time, receive exclusive discounts, create content for rewards, and enjoy fast delivery services.

Objective

Develop a responsive and modern Company Portfolio Website for TrialShopy using the MERN Stack (MongoDB, Express.js, React.js, Node.js).

Technology Stack

Frontend:

- React.js
- Tailwind CSS / Material UI
- Axios
- React Router

Backend:

- Node.js
- Express.js

Database:

- MongoDB

Deployment:

- Vercel (Frontend)
 - Render / Railway (Backend)
-

Required Pages
